

Economy Forced Air Drying Ovens

LABEC Economy Forced Air Drying Ovens are available in a range of sizes with heating up to 300°C. Competitively priced, these entry level ovens are suitable for applications where general warming or heating is required.

These models feature bacteria resistant powder coated mild steel outer, with stainless steel internal chamber. All models have a double-layer glass observation window for easy viewing of the product inside. PID microprocessor temperature control and over-temperature protection make this range the ideal choice for any laboratory.

OEF-30/45/65/85/125

OEF-230/625

Product Features:

- Horizontal air circulation for high efficiency and high temperature uniformity.
- PID controller with LCD display and over-temperature protection function.
- Adjustable fan speed.
- Independent temperature limiter and automatic over-temperature shut off.
