

Plastic, Metal & Glass Cleaner

Fast, Gentle Cleaning for Workbenches, Tools and Equipment

Plastic, Metal & Glass Cleaner is a highly affordable cleaner formulated for the hygienic cleaning of work surfaces and tools

- **Highly Effective Cleaning for Tools and Gear**
- **Noncorrosive & Nonflammable**
- **An Industrial-Grade Alternative to Householder Cleaners**
- **Very Affordable**

General Information

This versatile, water-based cleaner makes it easy and affordable to keep workspaces clean. Safe and nonflammable, Plastic, Metal & Glass Cleaner is the right choice for cleaning anywhere in the workplace.

About the Product

This is the strongest general-purpose surface cleaner ever offered by MicroCare. It is formulated for cleaning all industrial surfaces in factories, labs and offices. It's safe to use on benchtops, cabinets, housings, keyboards, numeric keypads, switches and relays, test equipment, conveyors,

hand tools and all the other equipment found in industrial environments. It is targeted at organic contamination such as oils, fingerprints, dust, fibers, most inks, pencil marks, and even spilled coffee. In addition, it dissipates the static which binds dust to plastic surfaces.

This cleaner often is used in polishing cases and displays on cell phones, televisions, video gear, games, cameras, and any other surface or housing. With this solvent, techs usually can return repaired products to like-new condition. This cleaner is completely safe on all metals, paints, ceramics, glass, benchtops and plastics. It leaves no residues and is noncorrosive.

Importantly, this cleaner is detergent-free. The harsh detergents used in some cleaners can cause painful temporary dermatitis where a technician's hands become dry and cracked. This nonflammable formula avoids these handling problems typical of less sophisticated cleaners.

Technical Details

Chemical Family	Aqueous Blend
Appearance	Clear Liquid
Aroma	Slight, ammonia
Boiling Point	100° C / 212° F

Health, Safety & Environmental Data

Toxicity Rating (ppm, 8-Hr., TWA, PEL)	See MSDS
Flashpoint (TCC)	None
Safety Rating	Nonflammable
NFPA	Health: 1; Fire: 0; Reactivity: 0
Ozone Impact	Zero
RoHS and WEEE Compliant	Yes

Packaging

Pump Spray	12 oz. / 340 g	MCC-PMG or -4761
Minicube	6 lbs. / 2.72 k	MCC-PMGG
Cubitainer	30 lbs. / 13.6 k	MCC-PMGP
Drum	450 lbs. / 204.1 k	MCC-PMGD

This product is packaged in the refillable pump sprayer (photo, left). The refillable pump sprayers are packaged in cases of ten (10) cans per box. Money-saving refills are packaged in Micro Care's unique, easy-pouring "cubitainers" which reduce the risk of spills and minimize injuries from lifting heavy containers. Refills are available in the sizes shown above.

The shelf life for all of these products is unlimited.

Each case of pump sprayers are packaged with 100 sheets of the recommended lint-free wipe for benchtop cleaning of tools and test equipment. Bulk products do not come with lint-free wipes.

Product Notes

Shake before use. This cleaner contains a small amount of ammonia, so it should not be used on ESD-sensitive materials like static mats. Never spray solvents directly onto CRTs, energized circuits, keyboards, keypads, or machinery; always apply the cleaner to lint-free wipe and then wipe the surfaces. Not for use on flat-panel displays. This product is 100% VOC exempt using SCAQMD guidelines.

AVAILABILITY. This product is available from MicroCare distributors world-wide. Contact your local distributor at www.MicroCare.com for details.
