### Product Information

Universal Contact Cleaner is a nonflammable cleaner that restores electrical and mechanical continuity to all types of contacts. It easily cleans a wide variety of soils including dust, grit, dirt as well as mineral oils, silicone oils, hydrocarbon based oils and fluorinated oils/grease.

It safely rinses grit from hot motors, dust from inside electromechanical relays, keyboards and other electrical devices. Use on connectors, cable harnesses, tuners, power supplies, encoders, distribution panels, junction boxes, coax cables, and switching devices. It leaves no residue, is noncorrosive, dries quickly and is compatible with most plastics, rubber and elastomers.

Universal Contact Cleaner is formulated for long-term regulatory compliance in all markets without sacrifice to either cleaning performance or safety. It is EU REACH compliant, VOC exempt by the US EPA and SCAQMD, and has an ultra-low Global Warming Potential (GWP) of 1.
