

### Technical Specification

## Alcohol-Enhanced Flux Remover ProClean™ Presaturated Wipes

- Stronger, faster stencil cleaner.
- Very pure blend, water-free alcohols.
- No rinsing required.
- Excellent on lead-free pastes.
- Non-corrosive & ESD-safe.
- No tear. No lint. Heavy duty wipe.
- Unique "slam-shut" package for extra long service life.

### Product Information

Alcohol-Enhanced Presaturated Wipes - *ProClean™* is the ideal general purpose flux and paste cleaner for use on the electronics production line. It uses a strong, shred-proof disposable wipe saturated in a powerful cleaning fluid to easily remove rosin, fluxes, synthetic fluxes and most "no-clean" fluxes and pastes. With no rinsing required this slow drying cleaner has great materials compatibility, is ESD safe and leaves no residue. Use for perfectly clean stencils, PC boards, components, displays, cables and connectors.

Money-saving refills are available from MicroCare (image to the right). These contain the same wipes and cleaning fluid as the tubs above, but reduce costs and help protect the environment by encouraging the re-use of packaging. This cleaner is also available packaged in convenient aerosol containers.

**AVAILABILITY:** Stocked locally by MicroCare distributors world-wide. Contact MicroCare for a distributor near you. For more information contact MicroCare directly or visit [www.MicroCare.com](http://www.MicroCare.com).
