

Technical Specification

Alcohol-Enhanced Flux Remover ProClean™

- Low-cost cleaner for rosin, water based and no-clean fluxes
- Use on solder pastes, fluxes and fresh chip bonder
- Plastic-safe
- Slow drying increases cleaning time when working with baked-on flux residues
- Alcohol blend delivers increased cleaning strength compared to isopropyl alcohol
- ESD-safe
- MicroCare TriggerGrip™ cleaning system compatible

Product Information

Alcohol-Enhanced Flux Remover - *ProClean™* is a proprietary blend of alcohols engineered specifically to quickly clean rosin fluxes, synthetic fluxes and most no-clean fluxes/pastes from all types of electronic assemblies, circuit boards and associated assembly equipment.

This low cost cleaner has a slow evaporation rate and dries residue free. It is also effective in cleaning oils and grime often found on electronics and is compatible with nearly all electronics grade materials and substrates. Use with confidence to clean assembly line items such as stencils, components, boards, displays, cables and connectors.

Dispense directly from the can or use with the MicroCare TriggerGrip™ cleaning system for faster, safer and more economical process of cleaning printed circuit boards at the work bench. Also available in pressurized wipe packaging.
